

Professional Growth Points for 2011-2012

Tenured certificated employees are required by law to give evidence of professional growth during the Professional Growth Period of six years. Active LEA Members, FRs and Board members can claim the professional work of the Association. Acceptable work may include: serving as officers, serving on committees, attending national or regional conventions or conferences or other work of a professional character. Five hours of time spent in professional education service will entitle the applicant to two points. (Time spent typing reports, collecting dues, telephoning or other routine or clerical services do not come within the intent and purpose of the law for professional growth credit.) Add the hours of those meetings you attended, then multiply by 0.4 to find your professional growth points. The same procedure can be used for attendance at DA or RA and for participation in LEA committees and LEA workshops.
